An Update - Keeping Well and Safe at the Club

The Management Committee met last night, and discussed, inter alia, the current situation relating to Covid 19. Members will wish to continue to mitigate against contracting or transmitting Covid (or any of the other nasties we are being warned about), and to that end, the following measures, which will be kept under review, have been agreed.

Most importantly, please don't come to the Club if you are feeling unwell, and particularly if you have Covid, common cold or flu symptoms.

Please use hand sanitiser when you arrive at the Club. Dispensers are positioned in numerous easily accessible places.

The Club will be well ventilated; doors and windows will be open wherever possible. You may wish to wear an extra layer or bring your own throw!

Members may wish to wear a face covering, especially when moving around the Club. However this is not obligatory for Members nor staff at the moment.

Our Social Committee has put together a wonderful programme for the coming months. Please enjoy yourselves, while maintaining a constant awareness.
